

## Light on Heat and Health

OF COURSE you are interested in getting most heat and best heat for the least money. In a booklet "Twice-a-Day" given free at our store there are plenty of reasons why the family health depends on the right heat, and why Campbell's Winter-Chaser Furnace will answer all your needs. We can install this furnace, in 24 hours, and we guarantee satisfaction, or you pay nothing.

## CAMPBELL'S WINTER-CHASER FURNACE

will heat your home at all times; in all weathers; north rooms as well as south—no matter how the wind blows. Remember, colds and coughs that come with the breaking up of winter are often caused by uneven heating—during the changeable weather of early spring. The Gripe Germ thrives where the temperature is badly regulated; where bursts of heat and cold alternately chill and bake.

A study of Winter-Chaser construction will make it clear to you why you can save so much in fuel—no waste, no clinkers. Note the big reservoir, insuring even heat; the large jacket with entrance door for cleaning. Made of thick steel; no cement; no escaping gas or odors.

Let us tell you about the help to you in Campbell's service and their guarantee. This means actual protection of the family health and your pocketbook. It's well worth investigating. The Winter-Chaser is made by The Campbell Heating Co. of Des Moines, Iowa.

NEWMAN & STUART

## WOMAN KILLED IN AN AUTO ACCIDENT LAST NIGHT

Salt Lake, Sept. 18.—In an automobile accident shortly after midnight on the county road between Sixteenth and Seventeenth South, Mrs. E. E. Lawless was killed outright. Theodore Abramson suffered a fractured skull and will die, and three others were injured.

**The Dead.**  
Mrs. E. E. Lawless, 944 South Lake street; neck broken, skull crushed and internal injuries.

**Fatally Injured.**  
Theodore Abramson, 869 East Ninth South street; compound fracture of the skull; broken leg.

**Seriously Hurt.**  
Mrs. J. V. Bernstrom, 869 East Ninth South street; badly cut about the face; body bruised.

J. V. Bernstrom, driver of the car, employed by the J. P. Fowler Manufacturing company; body bruised; possible internal injuries.

Frederick N. Wells, 944 Lake street, helper at J. P. Fowler Manufacturing company; face and head cut; body bruised.

J. Victor Bernstrom; employed by the J. P. Fowler Manufacturing company, was driving the car. The party had been to a roadhouse south of the place where the accident occurred.

While they were returning Bernstrom saw one of his tires blow out and veered the machine into a post, throwing the occupants out and smashing the car badly.

Boyd Park, son of Mayor Samuel C. Park, happened to be driving to Salt Lake. He saw the accident and, stopping his car, picked up the injured people.

Driving first to the emergency hospital the victims were hastily examined. Mrs. Lawless and Abramson were rushed to the county hospital.

Examination showed that the woman had died from a broken neck and other injuries. Abramson was unconscious. Drs. C. C. Snyder and C. L. Shields operated upon him, but express the belief that he cannot survive.

Bernstrom, the driver, remained away from the station until Mrs. Lawless and Abramson had been taken to the county hospital. Later, however, he showed up at the police station.

## GERMANY MAKES MANY PROMISES

King Ferdinand to Have Crown of Byzantium and Rule Balkan Nations and European Turkey.

Turin, Sept. 17, via Paris, 5:15 a. m.—The Stampa says it has learned "from a diplomatic source" that Germany has made extensive promises to Bulgaria to contain that nation's benevolent neutrality. It states that the promises were made to King Ferdinand of Bulgaria by the Grand Duke of Mecklenburg on behalf of Emperor William, and that among them was the stipulation that King Ferdinand should have the crown of Byzantium.

This dispatch, which lacks authoritative confirmation, would indicate on its face a promise to Bulgaria of a radical extension of its boundaries. The ancient Byzantine empire included all the territory now held by the various Balkan nations and European Turkey.

### Bulgaria Against Allies.

Bucharest, Rumania, Thursday, Sept. 16.—Via Berlin and London, Sept. 17, 12:17 p. m.—The allies know that, in no case, may they count on Bulgaria's help on the Gallipoli peninsula. The German official independence Rumania in an article dealing with the Turco-Bulgarian agreement. "They have lost that part of their diplomatic contest in the Balkans. It remains to be seen how the other part will come out."

"King Ferdinand will leave tomorrow for a week's vacation on the Danube. This fact completely disposes of reports concerning the activities of Rumanian troops on the frontier, which, in reality, are nothing more than the annual maneuvers."

## ZEPPELIN RAIDS OVER LONDON

London, Sept. 17, 8:40 p. m.—An official description of some of the effects of the last Zeppelin raid upon the London district, written by an impartial observer, at the request of Home Secretary Sir John Simon, has issued tonight for publication as follows:

"While it is absolutely necessary in the interest of public safety to maintain the rule that no unauthorized accounts shall appear, the real character of the outrages will be better understood from a collection of incidents, each verified on the spot and vouched for by the authorities as accurate. The home secretary takes this opportunity of stating explicitly that the total casualties resulting from these air raids have been correctly stated in all cases. The information is based upon an exhaustive inquiry by the police."

"In a letter some months ago First Lord of the Admiralty Balfour set forth the reasons which prevented the government from disclosing the exact localities in which damage has been done in the various Zeppelin raids. These reasons remain valid and there is no intention of departing from the rule adopted to prevent information being made available for the enemy, either in regard to the routes taken or the places and buildings in which bombs were dropped."

"The experience in the raids last week combined with German official reports, demonstrate that commanders of German aircraft often are grossly in error as to their movements and they have no means of estimating the effect of their promiscuous bombardments, materially or morally."

**Damage is Slight.**  
"In every case where damage has been caused, it was private property which suffered, and in most cases this has been of the most residential kind. Almost all the unfortunate people who have been killed, not only were non-combatants, but non-combatants of a class who hitherto, in the honorable practice of civilized warfare, have been exempt from attack—women, children, small shopkeepers, workmen—the sacrifice of whose lives serves no military purpose, either morally or materially."

"The folly and futility of the raids last week may well be imagined when it is remembered that the London district, taken for convenience as the area administered by the metropolitan police, is just short of 700 square miles in area. It was by hastily dropping at random, in the dark, explosive and incendiary materials somewhere on this enormous surface that the enemy professed to have accomplished an important military purpose."

"The fact is that no public institution of any kind was hit, nor was any power station or arsenal. No damage was done affecting the use of any building connected directly or indirectly with the conduct of the war."

"It is true two hospitals narrowly escaped damage, but it is only fair to say in behalf of the officers of an army which has done its best to destroy the cathedrals of Belgium and France, that up to the present they have succeeded in hitting only one church."

"So far as the moral effect of the raid is concerned, it is feared that from the standpoint of Berlin, it was a complete failure. If Count Zeppelin himself accompanied the raiding aircraft, as has been reported from Holland, he will be disappointed to learn that only a minority of the vast population of London was aware of the presence of his airships; that among those who heard the gunfire and saw the Zeppelins, the feelings everywhere aroused were interest and curiosity rather than fear."

**Calculated Brutality.**  
"That London and its suburbs as a community, faced calmly the murderous efforts of these creatures, in no way a mitigation of the callous and purposeless brutality of the tragedies which have followed."

"Here are a few pictures of the effects accomplished by the officers who crewed the last airship which visited the London district. Somewhere in London there is a little street with a public house at the corner."

"Outside it Wednesday evening, after the place was closed, a man and

a woman stood talking. While the woman went away to buy supper, the man waited for her and there fell at his feet the first explosive bomb. "They killed the man outright and blew pieces of the paving stone onto surrounding roofs. They blew in the front of the public house, reducing the stock to a mass of broken glass. On the floor above they twisted an iron bedstead, injuring a woman who was sleeping there and reduced what had been the carefully-kept living rooms of a small family to a mass of soot, dust, plaster and broken glass. In what conceivable respect did this contribute to the progress of the war?"

"In another part of the area over which the airship passed there is a big block of workmen's dwellings which are crowded day and night with children. A bomb dropped on the roof."

"Directly under the roof was a little flat in which four children had been sleeping quarters."

## S. P. RAILROAD TO PROVE CASE

Exhibits to Show Company Is Justified in Operating Steamer Line.

Chicago, Sept. 17.—Exhibits to show that the Southern Pacific railroad is justified in its operation of the vessels of the Associated Oil company, despite provisions of the Panama canal act forbidding the operation of boat lines by railroads, were presented here today before Edward E. Clarke of the interstate commerce commission.

A year ago the commission ruled against the railroad on the ground that it owned a majority of the stock of the Associated Oil company. The railroad based its request for a rehearing on a recent amendment to the law, permitting the operation of railway-owned vessels in cases where competition is not decreased by their operation and the public interest is served.

The chambers of commerce of San Francisco and Portland, Oregon, sent representatives to the hearing to testify in behalf of the Southern Pacific. They are Seth Mann, San Francisco, and Joseph Pearl, Portland.

**SURE-THING MEN ARE UNDER ARREST**

Will Spicer and C. S. Baker were arrested yesterday afternoon, following an alleged attempt to "fleece" J. Hale out of his bankroll. Hale and Spicer came to Ogden on an east-bound train, from Los Angeles, and became acquainted a few miles south of Salt Lake City. On their arrival in Ogden, Spicer suggested that they take a walk over to the Twenty-fourth street viaduct to give the railroad shops and yards the "once over."

The suggestion was followed out and on the viaduct they met Baker, who posed as a cattle buyer for the English government. After conversing for a while, Baker suggested that they match coins for the drinks. The game was started and, from coins for the drinks, the stakes grew into bigger money and just as Hale was ready to bet \$25 on one throw, the police arrived and took his two companions to jail. Spicer and Baker were released on \$20 bail and Hale continued his journey eastward.

## SPECIAL TOURS MEXICAN LINE

El Paso, Texas, Sept. 17.—Bandits operating along the Mexican North-western railroad have threatened the lives of all foreigners, particularly Americans, according to reports received here today. These bandits state the threats were made because members of the Chavez brothers' band were fired upon by Villa soldiers when they went to receive the ransom demanded for Edward Ledwidge, commissary agent for the railroad and other companies of the Pearson interests.

Only half of the \$10,000 ransom demanded had been delivered to the bandit when he fled amid a hail of bullets. Ledwidge was fired upon by his Mexican guard but reached the train of rescuers unharmed.

As a result of this incident, it is understood, a special train is touring the line and employees are being urged to leave the country.

An account of Ledwidge's rescue, received here today, stated that the train carrying a few Americans with the \$10,000 ransom money, was filled with Villa soldiers. A squad of the best marksmen were sent on a detour to a point on the train over which the bandit must come to receive the ransom. The train then proceeded to the rendezvous. A guard marched Ledwidge into view and followed within good rifle shot. Then the bandit who was to receive the ransom money rode to the train.

As he received a package of money from J. Faddock, representative of the railroad, the bandit caught sight of a Villa soldier. He thrust the package into his shirt, swung his horse around and, riding close to its side, raced back up the trail. The soldiers sent on detour immediately opened fire, as did the soldiers on the train, but the rider escaped, apparently unharmed.

At the first shot, Ledwidge's guard opened fire, but the American raced for the train and reached his rescuers unscathed.

**Villa Soldiers Under Orders.**  
It was explained that the Americans in the ransom party were not responsible for firing upon the bandits; that they were compelled to submit to the Villa military commander, who was under orders to kill the bandits who came for the money.

Because of the apparent danger to Americans, the story of the payment of the ransom and the resulting irritation was withheld until a train could be sent along the line to pick up foreign residents and employees in the towns along the railroad, in accordance with the state department warning.

**STATE OFFICIALS TO MEET IN DUCHESNE**  
Duchesne, Sept. 17.—State Auditor Lincoln C. Kelly and Secretary Harden Bennion of the state board of equalization will meet in the Duchesne county courthouse next Monday with the joint boards of commissioners of Duchesne and Uinta counties in an endeavor to unravel the tangle in tax matters created by the discovery that the 110th meridian line and a quarter west of where it was for many years supposed to be, Uinta county has stolen a march on

## AMERICAN HAS A HARD EXPERIENCE

Arrested by Russian Police, Stripped and Thrown Into Prison With Five Murderers.

New York, Sept. 17.—Dr. H. C. Leineweber, who is connected with the music division of the Congressional library at Washington, accompanied by his wife and child, arrived today on the Russian steamer Kursk from Archangel and told of being arrested by the Russian police, stripped and thrown into a cell with five murderers.

Dr. Leineweber and his family went to visit relatives near Grodno more than a year ago. Last November he and his brother-in-law crossed the Dvina river to Dvinsk to buy supplies. The men left their passports at police headquarters, being told that the papers would be sent to their hotel shortly.

The same evening, Dr. Leineweber said, the chief of police and ten officers entered their room, stripped them, took away all papers and letters, and put Dr. Leineweber and his brother-in-law in a small cell with five murderers. Four or eight hours later, the Grodno police obtained their release.

## GERMANS MAKE MORE PROGRESS

London, Sept. 17, 9:55 p. m.—Field Marshal Von Hindenburg's army now is well astride the Dvinsk-Vladivostok railway, his advance guards having reached and occupied the town of Vidy, which is a good 20 miles east of the line. This wedge, which the German commander has driven into Russia's defense, seriously endangers both Dvinsk and Vilna. The latter town, which the Russians once before evacuated, again has been left to an enemy which will only attempt to delay the German advance.

All government institutions and most of the factories already have been removed to places of safety, and the civil population left long ago. Probably a more determined attempt will be made to hold Dvinsk, which, situated as it is, on the broad and fast-flowing river Dvina, can offer a stronger resistance.

Along the rest of the eastern front there has been little change in the situation. The German center has made a further slight advance and must be nearing the railway east of Pinsk, possession of which would separate the northern and southern wings of the Russian armies operating on either side of the Pripiet marshes. The Russians always have affected to disregard such a contingency, however, claiming the two armies are able to operate independently of each other, and consequently continue their offensive from a point east of Kovel through Galicia to the Rumanian frontier.

The great effort to hold the present line in Galicia doubtless is dictated by near eastern politics, which grow more complicated as the days pass. Rumania alone appears to be definitely on the side of the quadruple entente. Greece apparently has decided to maintain her neutrality, for the time being at any rate.

**Take Long Rest.**  
Meanwhile the allied troops on the Gallipoli peninsula are taking a long rest, which is only occasionally disturbed by Turkish artillery.

In the west there has been only a repetition of artillery engagements, with the novelty of a German grenade attack near Perthes, which the German report says gave them possession of a portion of a French trench.

England is absorbed in the rumored cabinet crisis over the question of conscription, to which it is reported David Lloyd-George and Winston Spencer Churchill have been converted. Lords Curzon and Lansdowne, Andrew Bonar Law, Walter Hume Long, J. Austen Chamberlain, the Earl of Selborne and Sir Edward Carson, the conscriptionist members, are said to be threatening to resign unless Premier Asquith, First Lord of the Admiralty Balfour, Sir Edward Grey, Lord Kitchener and other cabinet members adopt their chosen policy.

Lacking positive statements from Premier Asquith and Lord Kitchener that compulsory service is necessary for the safety of the country, the system is likely to find little support in the present parliament, with the radicals, laborites, and nationalists opposed to it. Many members opposed to conscription are prepared to accept, however, the verdict of the premier and war secretary on the question which is now a subject of serious consideration in the cabinet.

## CHARGE IS FILED AGAINST WILSON

Brigham City, Sept. 17.—An information has been filed in the district court here against L. D. Wilson, charging him with assault. Wilson is the man who attacked an engineer of the Ogden, Logan & Idaho railway when the engineer attempted to enter the field leased by Wilson when he was making a survey for the Brigham-Wellsville extension of that road some weeks ago. District Attorney Roy D. Thatcher filed the information. Wilson will be arraigned before Judge J. D. Call next Monday and he will then plead. Later in the term of court Wilson will be tried.

**STATE OFFICIALS TO MEET IN DUCHESNE**  
Duchesne, Sept. 17.—State Auditor Lincoln C. Kelly and Secretary Harden Bennion of the state board of equalization will meet in the Duchesne county courthouse next Monday with the joint boards of commissioners of Duchesne and Uinta counties in an endeavor to unravel the tangle in tax matters created by the discovery that the 110th meridian line and a quarter west of where it was for many years supposed to be, Uinta county has stolen a march on

## REPUBLICAN PRIMARIES Next Monday Evening

CALL FOR REPUBLICAN CITY CONVENTION

A Republican City convention is hereby called to meet at the County Court House in Ogden City, Utah, on Tuesday, September 21, 1915, at 7:30 o'clock p. m., for the purpose of recommending and endorsing candidates as follows: For Mayor-commissioner; for four-year commissioner; for municipal judge and city auditor; to be general primary election for municipal candidates of Ogden City. The convention will also select a new central committee, consisting of one member from each election district in Ogden and transact any and all other business that may properly come before said convention. The apportionment of delegates to said convention is made up on a basis of one delegate for each 15 votes or major fraction thereof cast for the last Republican candidate for mayor, said apportionment being as follows:

District	Number of Delegates
First District	11
Second District	12
Third District	12
Fourth District	14
Fifth District	16
Sixth District	12
Seventh District	19
Eighth District	16

Total District Primaries for the election of delegates to the City Convention are hereby called to meet at the usual place in each Municipal Ward in Ogden City to be hereafter announced, to be held Monday, September 20, 1915, at Seven Thirty p. m., at which time and place delegates to the convention are to be elected to said Republican City Convention. All well disposed citizens who believe that a change in the City Government will tend to the more uplift of the Community and the future prosperity of our people, irrespective of previous political affiliations, are invited to attend the Primaries and support the ticket nominated.

GEO. J. KELLY, Chairman.  
J. M. FORRESTALL, Sec'y Pro Tem.  
Dated September 11, 1915.  
—Advertisement.

Duchesne by already mailing tax notices to all residents of the city of Roosevelt and the farmers residing in the thirty-mile strip of disputed territory. Inasmuch as Wasatch county has collected taxes from the section in controversy ever since the opening of the Uinta Indian reservation to settlement ten years ago, the Duchesne county treasurer had presumed that the new county carved out of former Wasatch county territory would, of course, receive the 1915 taxes which the Duchesne county assessor had assessed last spring and so was preparing to mail out the "no man's land" notices with those of the remainder of the county on October 1.

It is expected that all of the prominent business men of Roosevelt will be in attendance and a lively session will ensue, as Uinta county seems thoroughly in earnest in its efforts to acquire a strip of territory, the assessed valuation of which is \$175,000 this year.

## FIGHTING ALONG MEXICAN BORDER

Brownsville, Texas, Sept. 17.—American cavalrymen fought two fights with Mexicans across the Rio Grande today, one here and one near Donna, about sixty miles up the river. In both cases the American soldiers were fired upon and returned the fire without themselves suffering any casualties.

Ten American cavalrymen in the Donna fight, which lasted two hours and a half, this afternoon, reported they were fired upon by 40 or 50 Mexicans and believed that they had hit 17 Mexicans.

Twenty American cavalrymen fought on the outskirts of Brownsville for half an hour with Mexicans on the opposite side of the bank of the river. After the fight one Carranza soldier was taken to Matamoros, probably fatally wounded, but to-night Carranza officers denied emphatically that any of their men joined in the battle. Investigation of the affair is in progress.

## DUMBA CALLS ON VON BERNSTORFF

New York, Sept. 17.—Dr. Constantin Dumba, the Austro-Hungarian ambassador, whose recall has been asked by President Wilson, visited Count von Bernstorff at his hotel late today and remained with the German ambassador for more than an hour. When Dr. Dumba left he declined to

discuss his visit or any other question. All he would say was that he expected to go to his summer home at Lenox, Mass., tonight. Through his secretary, Count von Bernstorff said he wanted it understood that Dr. Dumba had not held a conference with him and that being an old acquaintance the Austrian ambassador had merely dropped in to pay a friendly call. Asked if Dumba's call was in the nature of a final adieu, the secretary answered "Not at all." He added that he did not believe that Dr. Dumba had made definite arrangements for his trip to Vienna.
